

Mechanical Drafting Services

"We offer cost effective working, assembly, fabrication, paper to CAD and P & ID drawing services ensuring quality, accuracy and dependability"

Mechanical 2D Drafting Services

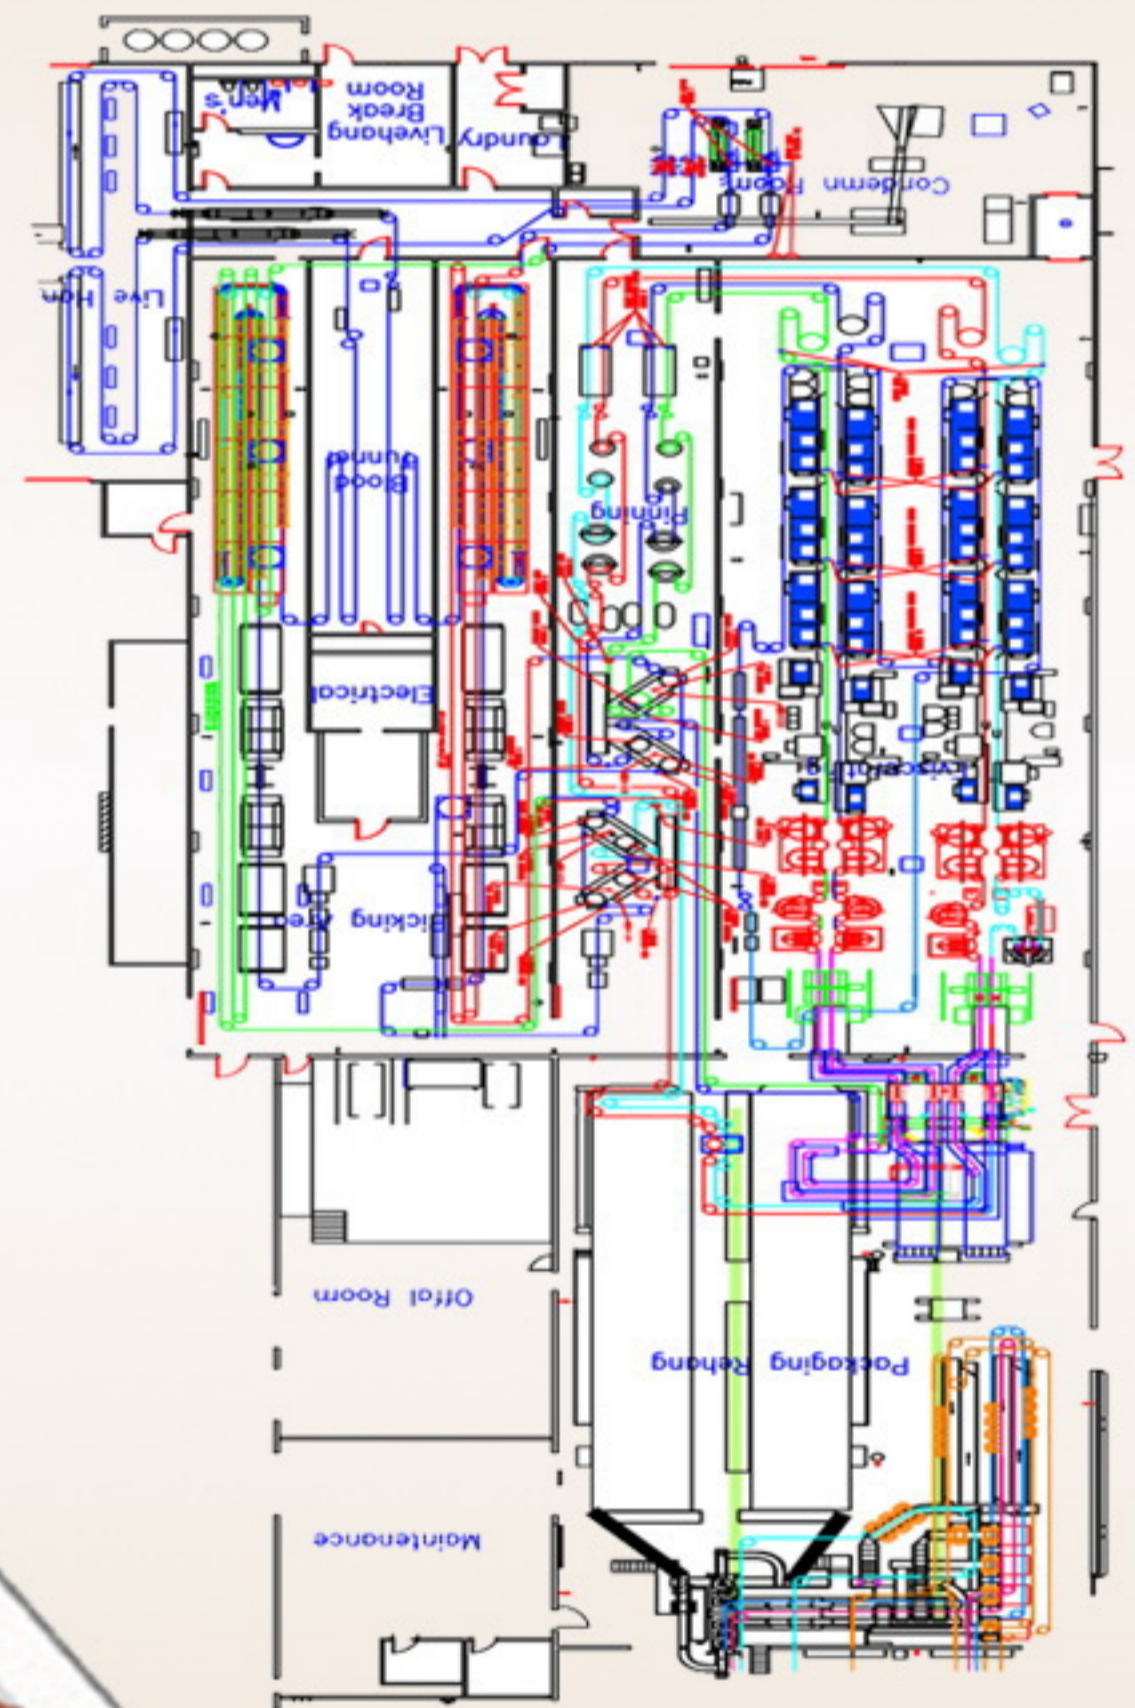

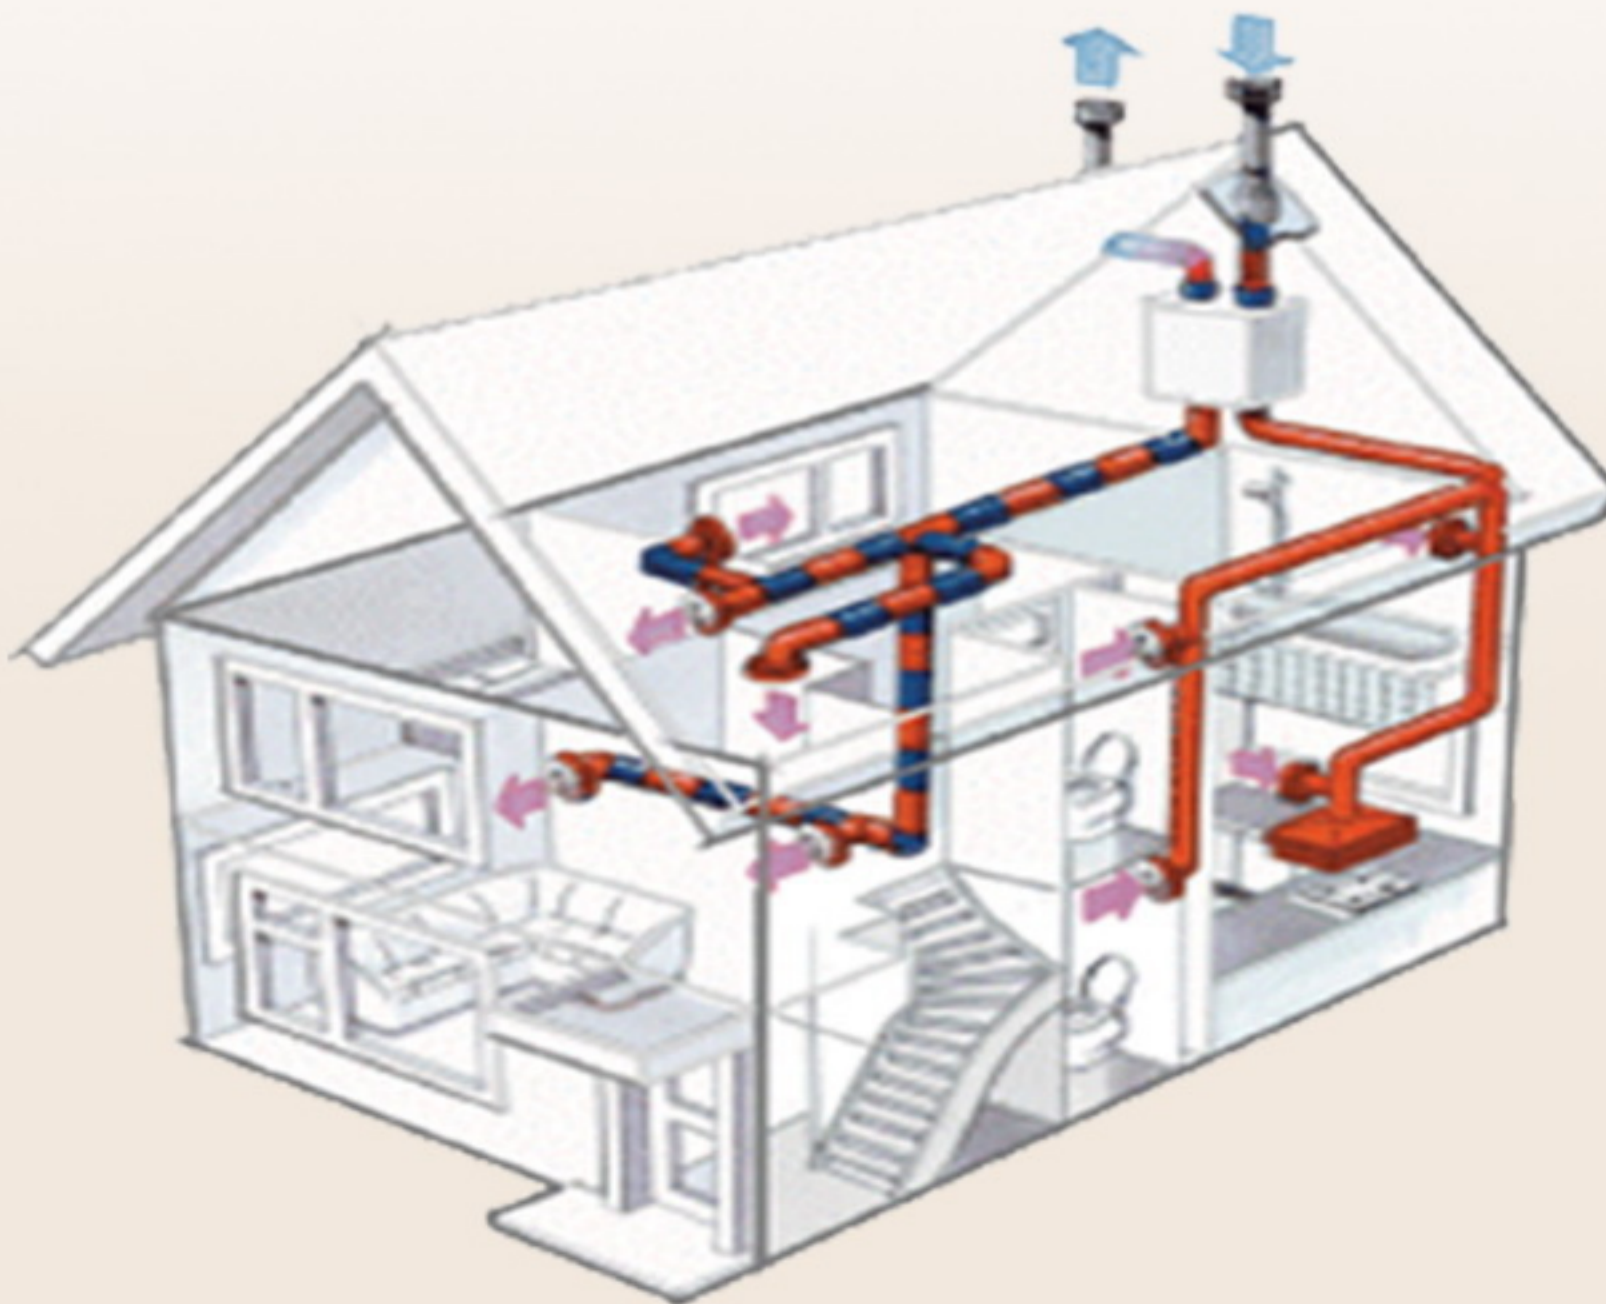

Starting from a sketch, a fully detailed drawings or a concept, we create incredibly detailed, two-dimensional drawings that are done with high precision. We convert these to 100% CAD geometry to bring your drawings up to date with your specific CAD application & CAD standards. Our 2D drafting services include;

- o Working drawings from Conceptual Sketches
- o Layout & Network Diagrams
- o Assembly & Installation Drawings
- o Fabrication Drawings
- o Equipment Layouts
- o Piping & Instrumentation Diagrams (P & ID)

Mechanical 3D Drafting Services

We Provide more detailed 3D drawings for complicated systems & layouts,

- o 3D Assembly Drawings
- o 3D Installation Drawings
- o 3D Network Diagrams

Software

- o AutoCAD
- o WaterCAD
- o AnvilCAD
- o Microstation Mechanical Drafting Packages
